Dear Parents,

I have been made aware that one of our students discovered a bug in his sandwich today. The matter has been reported to Sodexo Food Service Company that is working at AULCS. A meeting has been requested with Sodexo to update us with their most current food-handling and safety procedures. We have also contacted Bowco (the pest management company) that visits our district once a month to maintain our facilities free from pests to alert them of the incident. Our intent will be to ask Bowco Company what other steps can be taken to ensure this type of incident never happens again.

AULCS is conscientious of the need to provide and maintain a safe, secured and healthy environment for our faculty, staff and students. Our goal continues to remain focused on providing excellent services for every student under our care. We shall keep you informed of our dialogue with Sodexo and Bowco and the expected improvements.

If you have any questions, please feel free to call the Office of the Business Administrator, Mr. Johnny Rosa.

Thank you for your understanding and cooperation.

Dr. Néstor Collazo, Lead Administrator
